From the black pepper trade of the ancient Romans to the introduction **(10)** _____ potatoes from the New World into Irish cuisine, new flavours and cooking techniques were incorporated into cuisines **(11)** _____ a way to add a bit of interest. This continuous exchange helps **(12)** _____ our culinary experiences every day.

Question 7.	A. finishing	B. turning	C. carrying	D. breaking
Question 8.	A. a	B. an	C. the	D. no article
Question 9.	A. when	B. where	C. which	D. whose
Question 10.	A. with	B. of	C. on	D. at
Question 11.	A. as	B. like	C. for	D. by
Question 12.	A. enrich	B. enrichment	C. enriching	D. enriched

Choose the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions

Question 13.

a. B: That's a great idea! I'll start bringing my reusable bottle to school tomorrow.

b. A: Why don't we try to reduce single-use plastic in our classroom?

c. A: Perfect, every small action helps protect the environment!

A. b - a – c B. a - b – c C. c - a – b D. b - c - a

Question 14.

a. Nam: Yes, I do. It's a great opportunity to learn about different customs and traditional foods.

b. Alex: That sounds wonderful! I think cultural diversity really enriches our lives.

c. Alex: Hi Nam, do you enjoy attending international cultural festivals?

d. Alex: Exactly! Last year, I tried traditional Japanese dishes and watched a Korean folk dance.

e. Nam: I completely agree with you.

A. c - a - d - e – b B. c - b - a - d – e C. a - c - d - b – e D. c - a - b - e - d

Question 15.

a. Dear Alex, I hope this email finds you in high spirits after your recent trip to Southeast Asia.

b. Integrating such vibrant cultural elements into our daily lives really broadens our perspectives on global diversity.

c. I was particularly fascinated by your account of the traditional lantern festival and how it brought entire communities together.
d. Looking forward to catching up in person soon to hear more about your international experiences!
e. Warm regards, Minh.
A. a - c - b - d – e B. a - b - c - d – e C. c - a - b - d – e D. a - c - d - b - e

Question 16.
a. As a result, living in a multicultural community helps people become more open-minded and tolerant.
b. Nowadays, globalization has brought people from different cultural backgrounds together.
c. Furthermore, experiencing diverse traditions enables individuals to appreciate various perspectives on life.
d. For example, people can easily taste international foods and celebrate festivals from around the world.
e. This cultural integration fosters mutual understanding among different communities.
A. b - d - c - a – e B. b - c - d - e – a C. b - d - a - c – e D. d - b - c - a - e

Question 17.
a. Renewable energy sources, particularly solar and wind power, have witnessed unprecedented growth in recent years.
b. Consequently, reliance on fossil fuels is gradually declining, leading to a notable reduction in greenhouse gas emissions.
c. This rapid shift is largely driven by technological advancements that have rendered clean energy significantly more affordable.
d. Despite these positive trends, substantial investments in energy storage systems are still required to ensure grid stability.
e. Therefore, governments must continue prioritizing sustainable energy policies to achieve long-term climate targets.
A. a - c - b - d – e B. a - b - c - d – e C. c - a - b - d – e D. a - c - d - b - e **Read the following passage about Ensuring Equal Access to Green Living and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 18 to 22.**

Environmental justice demands that all communities, regardless of income or race, **(18)**_____. If governments had implemented fair policies decades ago, many disadvantaged areas would not be suffering from pollution today. Unfortunately, the reality is that low-income neighborhoods often bear the heaviest environmental burdens, **(19)**_____**.** The movement for environmental justice, which began in the 1980s, continues to fight against these inequalities through community activism and policy advocacy. Clean air and water are basic human rights; **(20)**_____. Urban planners must consider social equity when designing new green infrastructure projects, yet economic interests sometimes override community needs. **(21)**_____**.** Many successful initiatives involve local residents in decision-making processes, creating solutions that truly meet community needs. Environmental justice advocates, studying the issue deeply and developing practical approaches, **(22)**_____

Question 18:

A. should have equal access to clean environments and sustainable solutions

B. which restricts their participation in environmental decision-making processes and sustainable development

C. whom benefits primarily from superficial improvements rather than fundamental ecological solutions

D. having limited opportunity for adapting to climate change consequences and resilience building

Question 19:

A. that had providing economic opportunities, educational resources, and healthcare facilities

B. will excluded clean water access, affordable housing, and public transportation

C. which include toxic waste sites, industrial pollution, and limited green spaces

D. replace natural habitats, traditional communities, and cultural heritage sites

Question 20:

A. consequently, these luxuries are rarely accessible in affluent communities

B. nevertheless, these essentials are frequently compromised in minority communities

C. similarly, these privileges are properly distributed in diverse communities

D. meanwhile, these resources are abundantly available in industrial communities

Question 21:

A. Corporations profiting from this sector must ignore both scientific warnings and community demands for sustainable practices

B. Politicians campaigning in these regions must balance both industrial interests and denial of environmental regulation frameworks

C. Developers building in these areas must prioritize both luxury markets and elimination of affordable green housing options

D. Organizations working in this field must address both immediate environmental threats and long-term sustainability goals

Question 22:

A. are now partnering with city officials to create meaningful change

B. will soon be lobbying against municipal regulations to prevent environmental reforms

C. have consistently avoided local authorities to maintain unregulated development practices

D. must immediately terminate existing agreements to prioritize corporate interests

Read the following passage about Building Understanding Across Nations and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 23 to 30.

In our interconnected world, cultural **ambassadors** play a vital role in bridging the gaps between different nations and peoples. These dedicated individuals and groups serve as links between cultures,

fostering mutual understanding and respect through various activities and programs. Their mission is to showcase their own cultural heritage while learning about and appreciating others, creating pathways for meaningful dialogue and lasting connections across borders.

Cultural ambassadors employ numerous methods to achieve **their** goals. They organize traditional festivals and art exhibitions that display unique customs, allowing visitors to experience different cultures firsthand. Language exchange programs enable people to communicate more effectively, while cultural workshops teach traditional crafts, music, and dance. These ambassadors also utilize digital platforms to reach wider audiences, sharing stories and traditions through social media and online events that connect people from different corners of the world.

Despite their important work, cultural ambassadors face several challenges in their mission. Stereotypes and prejudices can create barriers to understanding, while language differences sometimes lead to misunderstandings. Limited resources and funding may restrict their activities, and political **tensions** between nations can complicate their efforts. However, these dedicated individuals persist in their work, believing that personal connections and shared experiences can overcome these obstacles and promote harmony among different communities.

Looking ahead, the role of cultural ambassadors becomes increasingly significant in our global society. Their efforts to build bridges between nations contribute to reducing conflicts and fostering peace. Through their continued dedication to promoting cross-cultural understanding, these ambassadors help create a more inclusive and connected world where differences are celebrated rather than feared. This ongoing process of cultural exchange remains essential for building a future based on mutual respect and cooperation.

Question 23: Which of the following is NOT mentioned as a method used by cultural ambassadors?

A. Conducting diplomatic negotiations

B. Organizing traditional festivals

C. Teaching cultural workshops

D. Using social media platforms

Question 24: The word "**ambassadors**" in paragraph 1 is OPPOSITE in meaning to _____.

A. delegates **B.** representatives **C.** mediators **D.** adversaries

Question 25: The word "**their**" in paragraph 2 refers to _____.

A. methods **B.** cultural ambassadors **C.** visitors **D.** nations

Question 26: The word "**tensions**" in paragraph 3 could be best replaced by _____.

A. alliances **B.** negotiations **C.** strains **D.** agreements

Question 27: Which of the following best paraphrases the underlined sentence in paragraph 4?

A. Cultural ambassadors currently maintain strong relationships between different societies worldwide.

B. The historical importance of cultural ambassadors has shaped our modern global community today.

C. In the coming years, cultural ambassadors will play a more crucial role in our interconnected world.

D. International diplomacy requires cultural ambassadors to focus mainly on economic partnerships.

Question 28: Which of the following is TRUE according to the passage?

A. Cultural ambassadors rely exclusively on traditional festivals to promote cultural exchange.

B. Political tensions are the primary obstacle that prevents all cross-cultural communication.

C. Language barriers have been eliminated through modern exchange programs and technology.

D. They combine traditional events and digital platforms to reach diverse global audiences.

Question 29: In which paragraph does the writer mention what are three methods used by cultural ambassadors to achieve their goals?

A. Paragraph 1 **B.** Paragraph 2 **C.** Paragraph 3 **D.** Paragraph 4

Question 30: In which paragraph does the writer mention what challenges cultural ambassadors face in their work?

A. Paragraph 3 **B.** Paragraph 1 **C.** Paragraph 4 **D.** Paragraph 2

Read the following passage about the Motivating Behavioral Change and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 31 to 40.

Climate change awareness has increased dramatically, yet many people still **drag their feet** when taking meaningful action. This gap between knowledge and behavior represents a significant challenge in addressing climate change. Psychological research reveals several barriers that prevent individuals from making environmentally friendly choices despite understanding the risks. These include temporal discounting, where immediate benefits outweigh future consequences, and psychological distance, which makes climate change feel abstract. Additionally, eco-anxiety can paradoxically reduce motivation rather than inspire action.

Understanding psychological factors influencing climate action is crucial for effective interventions. **[I]** Social norms play a powerful role, as people tend to conform to what they perceive others are doing. When sustainable behaviors become visibly mainstream, individuals are more likely to adopt them. **[II]** Values also impact environmental choices, with those prioritizing community welfare more inclined toward pro-environmental behaviors. **[III]** People who believe **their** individual choices matter are more likely to engage in sustainable practices. **[IV]**

Effective climate communication strategies acknowledge these psychological principles. Framing climate solutions in terms of immediate benefits, such as improved health or financial savings, can overcome temporal discounting. Concrete, local examples make climate impacts less psychologically distant and more personally relevant. Collective action frameworks help counter feelings of helplessness by demonstrating how individual behaviors contribute to meaningful change when adopted widely. Moreover, positive messaging tends to motivate action more effectively than fear-based approaches, which can trigger **defensive** responses.

The path toward widespread climate action requires understanding human psychology. By designing interventions that align with how people naturally think and make decisions, rather than fighting against these tendencies, we can accelerate the adoption of sustainable behaviors. Communities, governments, and organizations all have roles in creating environments where climate-friendly choices become the default rather than the exception. With approaches that consider both individual psychology and social contexts, we can bridge the gap between awareness and meaningful action.

Question 31: The phrase "**drag their feet**" in paragraph 1 could be best replaced by _____.

A. hold back **B.** step up **C.** break down **D.** carry on

Question 32: Where in paragraph 2 does the following sentence best fit?

Furthermore, self-efficacy—one's belief in their ability to make a difference—strongly predicts climate action.

A. [I] **B. [II]** **C. [III]** **D. [IV]**

Question 33: The word "**their**" in paragraph 2 refers to _____.

A. sustainable practices **B.** people **C.** environmental choices **D.** social norms

Question 34: According to the passage, which of the following is NOT mentioned as a barrier to climate action?

A. Temporal discounting

B. Psychological distance

C. Eco-anxiety

D. Cultural differences

Question 35: Which of the following best summarises paragraph 3?

A. Climate communication must prioritize scientific data presented through local examples rather than global statistics to be effective

B. Fear-based messaging is ineffective for climate communication because it causes people to experience defensive reactions and denial

C. Effective climate communication applies psychological insights to overcome barriers by using positive framing, local examples, and collective approaches

D. Immediate benefits like health improvements and financial savings are the only effective motivators for sustainable behavioral change

Question 36: The word "**defensive**" in paragraph 2 is OPPOSITE in meaning to _____.

A. receptive **B.** guarded **C.** resistant **D.** protective

Question 37: Which of the following best paraphrases the underlined sentence in paragraph 4?

A. Psychological research must focus primarily on climate behaviors to advance scientific understanding

B. Achieving broad adoption of climate-friendly behaviors depends on comprehending how people think

C. Human psychology evolves in response to climate challenges, requiring continuous adaptation

D. Climate action initiatives succeed when individuals undergo thorough psychological assessment

Question 38: Which of the following is TRUE according to the passage?

A. Fear-based messaging is proven to be the most effective approach for encouraging sustainable behaviors

B. Individual actions have minimal impact on climate change compared to governmental policy interventions

C. Educational campaigns focusing on scientific facts are sufficient to overcome psychological resistance

D. People are more likely to adopt sustainable behaviors when they see these practices becoming mainstream

Question 39: Which of the following can be inferred from the passage?

A. Simply educating people about climate science is insufficient to motivate widespread behavioral change

B. Government regulations are more effective than psychological interventions for environmental protection

C. Most individuals actively resist adopting climate-friendly behaviors despite understanding consequences

D. Psychological distance affects older generations more significantly than it impacts younger populations

Question 40: Which of the following best summarises the passage?

A. Climate anxiety creates barriers to action that can only be overcome through collective governmental policies

B. Educational campaigns must focus primarily on the scientific evidence to encourage sustainable behaviors

C. Understanding psychological factors is essential for developing effective approaches to motivate climate action

D. Social pressure from communities is the most influential factor in changing individual environmental choices
